Subject Index*

A

Abduction-pronation and recession of second (index) metacarpal in thumb agenesis (Hentz and Littler), 113
Age distribution of experimental animals in nerve repairs (letter) (Freshwater), 165; reply (Cabaud and Rodkey), 165
Agenesis, radial, lengthening of ulna in: preliminary report (Dick et al.), 175
Allograft replacement of distal radius for giant cell tumor (Smith and Mankin), 299; invited editorial comment (Campbell), 308
Alveolar cell rhabdomyosarcoma of hand: case report with four year survival and no evidence of recurrence (Mutz and Curl), 283
American Society for Surgery of the Hand, The: presidential address (Kleinert), 225
(proceedings), 231
Amputation neuromata by silicone capping, prevention and treatment of (Swanson, Boeve, and Lumsden), 70
transmetacarpal, of index finger: clinical assessment of hand strength and complications (Murray, Carman, and MacKenzie), 471
traumatic, of digits: fate of remaining blood. Experimental and clinical study (Tamai et al.), 13
Anastomoses, microvascular arterial, objective signs of patency following: controlled study (Curtis, Loftis, and Wissinger), 22
influence of experimentally induced anemia on patency of (Buchler, Phelps, and Boswick), 29
patency of, experimental anemia and (letter) (Earle), 412; reply (Phelps and Boswick), 412
Anemia, experimental, and patency of microvascular anastomoses (letter) (Earle), 412; reply (Phelps and Boswick), 412
experimentally induced, influence of, on patency of microvascular anastomoses (Buchler, Phelps, and Boswick), 29
Angiomyoma, dermal, of upper extremity (Neviaser and Newman), 271
Animal(s), experimental, age distribution of, in nerve repairs (letter) (Freshwater), 165; reply (Cabaud and Rodkey), 165
proper experimental, for peripheral nerve research (letter) (Grabb); 164; reply (Cabaud, Rodkey, and McCarroll), 164; reply (Bora), 165
Anomaly of median nerve (letter) (Baruch and Hass), 331
Aponeurotic fibroma, juvenile (Specht and Staheli), 256
case report (Wallace and Fitzmorris), 258
Arterial anastomoses, microvascular, objective signs of patency following: controlled study (Curtis, Loftis, and Wissinger), 22
Artery, radial, cannulation in 1,000 patients: precautions and complications (Mandel and Dauchot), 482
Arthritis, degenerative, of carpometacarpal joint of thumb: clinical follow-up of eleven Niebauer prostheses (Ferlic, Busbee, and Clayton), 212
Arthroplasty, metacarpophalangeal joint implant, rational postoperative management program for (Madden, DeVore, and Arem), 358
silicone-rubber interposition, of carpometacarpal joint of thumb (Ashworth et al.), 345
total wrist: preliminary report (Beckenbaugh and Linscheid), 337
Arthrosis in carpometacarpal joint of thumb, endoprosthetic replacement of trapezium for (Haffajee), 141

*January, pp. 1-84; March, pp. 85-168; May, pp. 169-250; July, pp. 251-336; September, pp. 337-416; November, pp. 417-516.

Asteroides, Nocardia, thenar space infection: case report (Smith and Ruby), 109
Athletes, avulsion of profundus tendon insertion in (Leddy and Packer), 66
Athroplasty, metacarpophalangeal joint, with silicone-Dacron prostheses (Niebauer type): six and half years' experience (Goldner et al.), 200
Avulsion of profundus tendon insertion in athletes (Leddy and Packer), 66

B

Bacterial colonization of mutilating hand injuries and its treatment (Fitzgerald et al.), 85
Belgian Hand Group, The (proceedings) (Fissette), 244
(Fissette), 409
Bites, human, of hand: twenty years of experience (Mann, Hoffeld, and Farmer), 97
Blood, remaining, fate of: traumatic amputation of digits. Experimental and clinical study (Tamai et al.), 13
Bones, congenital triangular, in hand (Wood and Flatt), 179
Brachial plexus injuries, surgical management of (Millesi), 367
Brewerton view: detecting occult fractures of metacarpal head (Lane), 131
British Society for Surgery of the Hand, The (proceedings), 156
Burns, electrical ring, application of volume increase Z-plasty to finger skin in (Crow and McCoy), 402

C

Calcinosis cutis in upper extremity, surgical treatment of (Mendelson et al.), 318
Camptodactyly: analysis of sixty-six patients and twenty-four operations (Engber and Flatt), 216
Cannulation, radial artery, in 1,000 patients: precautions and complications (Mandel and Dauchot), 482
Carpal tunnel, anatomical variations of median nerve in (Lanz), 44
Carpometacarpal joint of thumb, degenerative arthritis of: clinical follow-up of eleven Niebauer prostheses (Ferlic, Busbee, and Clayton), 212
endoprosthetic replacement of trapezium for arthrosis in (Haffajee), 141
silicone-rubber interposition arthroplasty of (Ashworth et al.), 345
Chondrosarcomas, multiple, in hand: case report (Block and Burton), 310
Congenital deficiency of ulna (Carroll and Bowers), 169
triangular bones in hand (Wood and Flatt), 179
Contracture, Volkmann's ischemic (letter) (Pernet), 331; reply (Newmeyer and Kilgore), 331
Cutis, calcinosis, in upper extremity, surgical treatment of (Mendelson et al.), 318

D

Deep structures of hand, experience with atypical mycobacterial infection in (Gunther et al.), 90
Denervation of wrist joint (Buck-Gramcko), 54
Dermal angiomyoma of upper extremity (Neviaser and Newman), 271
Digital fibrous tumor, recurring, of childhood (Poppen and Niebauer), 253
rays, experience with distraction lengthening of, in congenital anomalies (Kessler, Baruch, and Hecht), 394
replantation (letter to editor) (Urbaniak), 82
synovial sheath region, vascularization of human flexor tendons within—structural and functional aspects (Lundborg et al.), 417
Digits and hands, replantation of: analysis of surgical techniques and functional results in 71 patients with 86 replantations (Weiland et al.), 1
glomus tumor of (Rettig and Strickland), 261
palm and, role of flexor tenolysis in (Whitaker, Strickland, and Ellis), 462
traumatic amputation of: fate of remaining blood. Experimental and clinical study (Tamai et al.), 13
Dislocation, dorsal, irreducible, of distal interphalangeal joint of finger (Palmer and Linscheid), 406
Distal interphalangeal joint of finger, irreducible dorsal dislocation of (Palmer and Linscheid), 406
radius, allograft replacement of, for giant cell tumor (Smith and Mankin), 299; invited editorial comment (Campbell), 308
Distraction lengthening of digital rays in congenital anomalies, experience with (Kessler, Baruch, and Hecht), 394
Dog, experimental model in: tendon healing (McDowell and Snyder), 122
Dorsal dislocation, irreducible, of distal interphalangeal joint of finger (Palmer and Linscheid), 406
wrist ganglions in children (MacCollum), 325
Dupuytren's contracture, palmar fascia and, enzymes of glucose metabolism in (Hoopes et al.), 62

E

Electrical ring burns, application of volume increase Z-plasty to finger skin in (Crow and McCoy), 402
Endoprosthetic replacement of trapezium for arthrosis in carpometacarpal joint of thumb (Haffajee), 141
Enzymes of glucose metabolism in palmar fascia and Dupuytren's contracture (Hoopes et al.), 62
Epithelioid sarcoma of hand and wrist: patterns of extension (Peimer et al.), 275

F

Factitious ulcer of hand, diagnosis of: case report (Phelps, Buchler, and Boswick), 105
Fascia, palmar, and Dupuytren's contracture, enzymes of glucose metabolism in (Hoopes et al.), 62
Fibroma, juvenile aponeurotic (Specht and Staheli), 256
case report (Wallace and Fitzmorris), 258
Fibrous histiocytoma, malignant, of forearm: report of case and review of literature (Hubbard and Burton), 292
of hand: case report (McDowell and Henceroth), 297
tumor, recurring digital, of childhood (Poppen and Niebauer), 253
Finger, extensive giant cell tumor of: case history (Zook), 267
human, systematic study of oblique retinacular ligament of: its structure and function (Shrewsbury and Johnson), 194
index, transmetacarpal amputation of: clinical assessment of hand strength and complications (Murray, Carman, and MacKenzie), 471
skin, volume increase Z-plasty: its application in electrical ring burns (Crow and McCoy), 402
Flexor tendon(s) graft through intact superficialis tendon (Stark et al.), 456
human, within digital synovial sheath region, vascularization of—structural and functional aspects (Lundborg et al.), 417
repair, delayed, in no man's land (Schneider et al.), 452
of, by intratendinous tendon suture (Tsuge, Ikuta, and Matsuishi), 436
primary, followed by immediate controlled mobilization (Lister et al.), 441

Flexor tendon(s)—cont'd.
sheath and pulleys of thumb, anatomy of (Doyle and Blythe), 149
tenolysis in palm and digits, role of (Whitaker, Strickland, and Ellis), 462
Foot, free neurovascular flap from first web of, in hand reconstruction (May et al.), 387
Forearm, hand and, nerve tumors of (Strickland and Steichen), 285
malignant fibrous histiocytoma of: report of case and review of literature (Hubbard and Burton), 292
Free neurovascular flap from first web of foot in hand reconstruction (May et al.), 387
French Society for Hand Surgery, The (proceedings) (Whalen), 237

G

Ganglions, dorsal wrist, in children (MacCollum), 325
Giant cell tumor, allograft replacement of distal radius for (Smith and Mankin), 299; invited editorial comment (Campbell), 308
extensive, of finger: case history (Zook), 267
of lunate bone: case report (FitzPatrick and Bullough), 269
Glomus tumor of digits (Rettig and Strickland), 261
Glucose metabolism, enzymes of, in palmar fascia and Dupuytren's contracture (Hoopes et al.), 62
Graft(s), flexor tendon, through intact superficialis tendon (Stark et al.), 456
skin, modified technique avoiding: Krukenberg operation (Nathan and Trung), 127

H

Hallux-to-thumb transfer with microsurgical technique: case report in 45-year-old woman (Tamai et al.), 152
Hand, alveolar cell rhabdomyosarcoma of: case report with four year survival and no evidence of recurrence (Mutz and Curl), 283
and forearm, nerve tumors of (Strickland and Steichen), 285
and wrist, epithelioid sarcoma of: patterns of extension (Peimer et al.), 275
malignant fibrous histiocytoma of: case report (McDowell and Henceroth), 297
multiple chondrosarcomas in: case report (Block and Burton), 310
reconstruction, free neurovascular flap from first web of foot in (May et al.), 387
report of case of periosteal (juxtacortical) chondrosarcoma occurring in (Wu and Kelly), 314
surgery, in favor of standing to do (Kilgore and Newmeyer), 326
The Scandinavian Society for Surgery of the (proceedings) (Carstam), 486
tumors of. Who is best qualified to treat tumors of hand? (editorial) (Smith), 251
Histiocytoma, malignant fibrous, of forearm: report of case and review of literature (Hubbard and Burton), 292
of hand: case report (McDowell and Henceroth), 297
Human bites of hand: twenty years of experience (Mann, Hoffeld, and Farmer), 97
Hyperphalangism: report of case (Wood), 79

I

Index finger, transmetacarpal amputation of: clinical assessment of hand strength and complications (Murray, Carman, and MacKenzie), 471
International Symposium on Surgery of the Hand, The: Tel Aviv, June 20-22, 1976 (Kessler), 157
Intratendinous tendon suture, repair of flexor tendons by (Tsuge, Ikuta, and Matsuishi), 436
Irrigation jet: aid in microvascular surgery (Buchler et al.), 24
Ischemia, tourniquet: ultrastructural and histochemical observations of ischemic human muscle and of monkey muscle and nerve (Tountas and Bergman), 31
Ischemic contracture, Volkmann's (letter) (Pernet), 331; reply (Newmeyer and Kilgore), 331
human muscle, ultrastructural and histochemical observations of, and of monkey muscle and nerve: tourniquet ischemia (Tountas and Bergman), 31

J

Juvenile aponeurotic fibroma (Specht and Staheli), 256
case report (Wallace and Fitzmorris), 258
(Juxtacortical), periosteal, chondrosarcoma: report of case occurring in hand (Wu and Kelly), 314

K

Kaplan, Isidore: 1927-1977 (in memoriam), 330
Koch, Sumner L.: 1888-1976 (in memoriam), 328
Krukenberg operation: modified technique avoiding skin grafts (Nathan and Trung), 127

L

Ligament, oblique retinacular, of human finger, systematic study of: its structure and function (Shrewsbury and Johnson), 194
Lipofibroma of median nerve in palm, ten year follow-up of: case report (Rowland), 316
Lunate bone, giant cell tumor of: case report (FitzPatrick and Bullough), 269

M

Malignant fibrous histiocytoma of forearm: report of case and review of literature (Hubbard and Burton), 292
of hand: case report (McDowell and Henceroth), 297
Mallet fingers, simplified technique for treating: tenodermodesis (Iselin, Levame, and Godoy), 118
May, Hans (in memoriam), 245
Median nerve, anatomical variations of, in carpal tunnel (Lanz), 44
anomaly of (letter) (Baruch and Hass), 331
in palm, lipofibroma of, ten year follow-up of: case report (Rowland), 316
Meningococcemia—unusual complication of peripheral neuropathy (Engber, Marti, and Moore), 404
Metabolism, glucose, enzymes of, palmar fascia and Dupuytren's contracture (Hoopes et al.), 62
Metacarpal head, detecting occult fractures of: Brewerton view (Lane), 131
second (index), abduction-pronation and recession of, in thumb agenesis (Hentz and Littler), 113
Metacarpophalangeal joint athroplasty with silicone-Dacron prostheses (Niebauer type): six and half years' experience (Goldner et al.), 200
implant arthroplasty, rational postoperative management program for (Madden, DeVore, and Arem), 358
Microsurgical technique, hallux-to-thumb transfer with: case report in 45-year-old woman (Tamai et al.), 152

Microvascular anastomoses, influence of experimentally induced anemia of patency of (Buchler, Phelps, and Boswick), 29
patency of, experimental anemia and (letter) (Earle), 412; reply (Phelps and Boswick), 412
arterial anastomoses, objective signs of patency following: controlled study (Curtis, Loftis, and Wissinger), 22
surgery, aid in: irrigation jet (Buchler et al.), 24
Mobilization, immediate controlled, primary flexor tendon repair followed by (Lister et al.), 441
Monkey muscle and nerve, ultrastructural and histochemical observations of ischemic human muscle and of: tourniquet ischemia (Tountas and Bergman), 31
Muscle and nerve, monkey, ultrastructural and histochemical observations of ischemic human muscle and of: tourniquet ischemia (Tountas and Bergman), 31
ischemic human, ultrastructural and histochemical observations of, and of monkey muscle and nerve: tourniquet ischemia (Tountas and Bergman), 31
Mutilating hand injuries, bacterial colonization of, and its treatment (Fitzgerald et al.), 85
Mycobacterial infection, atypical, experience with, in deep structures of hand (Gunther et al.), 90

N

Nerve, median, anatomical variations of, in carpal tunnel (Lanz), 44
muscle and, monkey, ultrastructural and histochemical observations of ischemic human muscle and of: tourniquet ischemia (Tountas and Bergman), 31
peripheral, research, proper experimental animal for (letter) (Grabb), 164; reply (Cabaud, Rodkey, and McCarroll), 164; reply (Bora), 165
repairs, age distribution of experimental animals in (letter) (Freshwater), 165; reply (Cabaud and Rodkey), 165
tissue, reaction of, to various suture materials: study in rabbits (DeLee, Smith, and Green), 38
tumors of hand and forearm (Strickland and Steichen), 285
Neuromata, amputation, by silicone capping, prevention and treatment of (Swanson, Boeve, and Lumsden), 70
Neuropathy, peripheral—unusual complication of meningococcemia (Engber, Marti, and Moore), 404
Neurovascular flap, free, from first web of foot in hand reconstruction (May et al.), 387
Niebauer prostheses, eleven, clinical follow-up of: degenerative arthritis of carpometacarpal joint of thumb (Ferlic, Busbee, and Clayton), 212
(type), silicone-Dacron prostheses, metacarpophalangeal joint athroplasty with: six and half years' experience (Goldner et al.), 200
Nocardia asteroides thenar space infection: case report (Smith and Ruby), 109
No man's land, delayed flexor tendon repair in (Schneider et al.), 452

O

Occult fractures of metacarpal head, detecting: Brewerton view (Lane), 131
Osteoid osteoma of thumb: report of case (Grundberg), 266
Osteoma, osteoid, of thumb: report of case (Grundberg), 266

P

Palm and digits, role of flexor tenolysis in (Whitaker, Strickland, and Ellis), 462
Palm—cont'd.
ten year follow-up of lipofibroma of median nerve in: case report (Rowland), 316
Palmar fascia and Dupuytren's contracture, enzymes of glucose metabolism in (Hoopes et al.), 62
Patency, objective signs of, following microvascular arterial anastomoses: controlled study (Curtis, Loftis, and Wissinger), 22
of microvascular anastomoses, influence of experimentally induced anemia on (Buchler, Phelps, and Boswick), 29
Periosteal (juxtacortical) chondrosarcoma: report of case occurring in hand (Wu and Kelly), 314
Peripheral nerve research, proper experimental animal for (letter) (Grabb); 164; reply (Cabaud, Rodkey, and McCarroll), 164; reply (Bora), 165
neuropathy—unusual complication of meningococcemia (Engber, Marti, and Moore), 404
Plexus, brachial, injuries, surgical management of (Millesi), 367
Primary tendon healing: review (Ketchum), 428
Profundus tendon insertion, avulsion of, in athletes (Leddy and Packer), 66
Pronation, abduction-, and recession of second (index) metacarpal in thumb agenesis (Hentz and Littler), 113
Pulleys, flexor tendon sheath and, of thumb, anatomy of (Boyle and Blythe), 149

R

Rabbits, study in: reaction of nerve tissue to various suture materials (DeLee, Smith, and Green), 38
Radial agenesis, lengthening of ulna in: preliminary report (Dick et al.), 175
artery cannulation in 1,000 patients: precautions and complications (Mandel and Dauchot), 482
Radius, distal, allograft replacement of, for giant cell tumor (Smith and Mankin), 299; invited editorial comment (Campbell), 308
Rays, digital, experience with distraction lengthening of, in congenital anomalies (Kessler, Baruch, and Hecht), 394
Replantation, digital (letter) (Urbaniak), 82
of digits and hands: analysis of surgical techniques and functional results in 71 patients with 86 replantations (Weiland et al.), 1
Retinacular ligament, oblique, of human finger, systematic study of: its structure and function (Shrewsbury and Johnson), 194
Rhabdomyosarcoma, alveolar cell, of hand: case report with four year survival and no evidence of recurrence (Mutz and Curl), 283
Ring injury, unusual (Drake et al.), 111
Roller injuries of hand, reconstructive surgery of (Sanguinetti), 134

S

Sarcoma, epithelioid, of hand and wrist: patterns of extension (Peimer et al.), 275
Scandinavian Society for Surgery of the Hand, The (proceedings) (Carstam), 486
Sheath region, digital synovial, vascularization of human flexor tendons within—structural and functional aspects (Lundborg et al.), 417
Silicone capping, neuromata amputation by, prevention and treatment of (Swanson, Boeve, and Lumsden), 70
-Dacron prostheses (Niebauer type), metacarpophalangeal joint athroplasty with: six and half years' experience (Goldner et al.), 200
-rubber interposition arthroplasty of carpometacarpal joint of thumb (Ashworth et al.), 345

Skin, finger, volume increase Z-plasty: its application in electrical ring burns (Crow and McCoy), 402
grafts, modified technique avoiding: Krukenberg operation (Nathan and Trung), 127
Society proceedings. (*See* specific society or group)
Spira, Ernst: 1901-1976 (Farine), 83
Standing to do hand surgery, in favor of (Kilgore and Newmeyer), 326
Superficialis tendon, intact, flexor tendon graft through (Stark et al.), 456
Surgery, hand, in favor of standing to do (Kilgore and Newmeyer), 326
Suture, intratendinous tendon, repair of flexor tendons by (Tsuge, Ikuta, and Matsuishi), 436
materials, various, reaction of nerve tissue to: study in rabbits (DeLee, Smith, and Green), 38
Symposium, The International, on Surgery of the Hand: Tel Aviv, June 20-22, 1976 (Kessler), 157
The XIII, on Surgery of the Hand, 157
Synovial sheath region, digital, vascularization of human flexor tendons within—structural and functional aspects (Lundborg et al.), 417

T

Tendon(s), flexor, graft through intact superficialis tendon (Stark et al.), 456
repair of, by intratendinous tendon suture (Tsuge, Ikuta, and Matsuishi), 436
healing: experimental model in dog (McDowell and Snyder), 122
human flexor, within digital synovial sheath region, vascularization of—structural and functional aspects (Lundborg et al.), 417
intact superficialis, flexor tendon graft through (Stark et al.), 456
primary, healing: review (Ketchum), 428
profundus, insertion, avulsion of, in athletes (Leddy and Packer), 66
repair, delayed flexor, in no man's land (Schneider et al.), 452
primary flexor, followed by immediate controlled mobilization (Lister et al.), 441
sheath, flexor, and pulleys of thumb, anatomy of (Doyle and Blythe), 149
suture, intratendinous, repair of flexor tendons by (Tsuge, Ikuta, and Matsuishi), 436
Tenodermodesis: simplified technique for treating mallet fingers (Iselin, Levame, and Godoy), 118
Tenolysis, flexor, in palm and digits, role of (Whitaker, Strickland, and Ellis), 462
The American Society for Surgery of the Hand: presidential address (Kleinert), 225
(proceedings), 231
The Belgian Hand Group (proceedings) (Fissette), 244
(Fissette), 409
The French Society for Hand Surgery (proceedings) (Whalen), 237
The Scandinavian Society for Surgery of the Hand (proceedings) (Carstam), 486
The Swiss Society for Surgery of the Hand (proceedings) (Nigst), 241
Thenar space infection, *Nocardia asteroides:* case report (Smith and Ruby), 109
Thumb agenesis, abduction-pronation and recession of second (index) metacarpal in (Hentz and Littler), 113
Thumb—cont'd.
carpometacarpal joint of, silicone-rubber interposition arthroplasty of (Ashworth et al.), 345
degenerative arthritis of carpometacarpal joint of: clinical follow-up of eleven Niebauer prostheses (Ferlic, Busbee, and Clayton), 212
duplicated, appropriate treatment for postoperative Z-formed deformity of (Miura), 380
endoprosthetic replacement of trapezium for arthrosis in carpometacarpal joint of (Haffajee), 141
hallux-to-, transfer with microsurgical technique: case report in 45-year-old woman (Tamai et al.), 152
Tourniquet ischemia: ultrastructural and histochemical observations of ischemic human muscle and of monkey muscle and nerve (Tonutas and Bergman), 31
Transmetacarpal amputation of index finger: clinical assessment of hand strength and complications (Murray, Carman, and MacKenzie), 471
Trapezium, endoprosthetic replacement of, for arthrosis in carpometacarpal joint of thumb (Haffajee), 141
Traumatic amputation of digits: fate of remaining blood. Experimental and clinical study (Tamai et al.), 13
Triangular bones, congenital, in hand (Wood and Flatt), 179
Tumor(s), extensive giant cell, of finger: case history (Zook), 267
giant cell, allograft replacement of distal radius for (Smith and Mankin), 299; invited editorial comment (Campbell), 308
of lunate bone: case report (FitzPatrick and Bullough), 269
glomus, of digits (Rettig and Strickland), 261
nerve, of hand and forearm (Strickland and Steichen), 285
of hand. Who is best qualified to treat tumors of hand? (editorial) (Smith), 251
recurring digital fibrous, of childhood (Poppen and Niebauer), 253

U

Ulcer, factitious, of hand, diagnosis of: case report (Phelps, Buchler, and Boswick), 105
Ulna, congenital deficiency of (Carroll and Bowers), 169
lengthening of, in radial agenesis: preliminary report (Dick et al.), 175
Ulnar drift (letter) (Micks), 248; reply (Harrison), 248
Upper extremity, dermal angiomyoma of (Neviaser and Newman), 271
surgical treatment of calcinosis cutis in (Mendelson et al.), 318

V

Volkmann's ischemic contracture (letter) (Pernet), 331; reply (Newmeyer and Kilgore), 331

W

Wrist arthroplasty, total: preliminary report (Beckenbaugh and Linscheid), 337
ganglions, dorsal, in children (MacCollum), 325
hand and, epithelioid sarcoma of: patterns of extension (Peimer et al.), 275
joint, denervation of (Buck-Gramcko), 54

Z

Z-formed deformity, postoperative, of duplicated thumb, appropriate treatment for (Miura), 380
-plasty, volume increase, to finger skin: its application in electrical ring burns (Crow and McCoy), 402

JULY 1977 *continued*

Alveolar cell rhabdomyosarcoma of the hand: Case report with four year survival and no evidence of recurrence 283
Sterling B. Mutz, M.D., and Walton Curl, M.D., San Francisco, Calif.

Nerve tumors of the hand and forearm 285
James W. Strickland, M.D., and James B. Steichen, M.D., Indianapolis, Ind.

Malignant fibrous histiocytoma of the forearm: Report of a case and review of the literature 292
Leonard F. Hubbard, M.D., and Richard I. Burton, M.D., Rochester, N. Y.

Malignant fibrous histiocytoma of the hand: A case report 297
Charles L. McDowell, M.D., and William D. Henceroth, M.D., Richmond, Va.

Allograft replacement of distal radius for giant cell tumor 299
Richard J. Smith, M.D., and Henry J. Mankin, M.D., Boston, Mass.

Invited editorial comment 308
Crawford J. Campbell, M.D., Boston, Mass.

Multiple chondrosarcomas in a hand: A case report 310
Robert S. Block, M.D., and Richard I. Burton, M.D., Rochester, N. Y.

Periosteal (juxtacortical) chondrosarcoma: Report of a case occurring in the hand 314
Kent W. Wu, M.D., and Alexander P. Kelly, M.D., Detroit, Mich.

Case report: Ten year follow-up of lipofibroma of the median nerve in the palm 316
Spencer A. Rowland, M.D., San Antonio, Texas

Surgical treatment of calcinosis cutis in the upper extremity 318
Bryan C. Mendelson, M.B., B.S., F.R.C.S.E., Ronald L. Linscheid, M.D., James H. Dobyns, M.D., and Sigfrid A. Muller, M.D., Rochester, Minn.

CLINICAL NOTES

Dorsal wrist ganglions in children 325
M. S. MacCollum, M.D., Phoenix, Ariz.

In favor of standing to do hand surgery 326
Eugene S. Kilgore, Jr., M.D., and William L. Newmeyer, III, M.D., San Francisco, Calif.
